# **Facility AUDIT FINDINGS**

## **Summary of Audit Findings**

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interviews		
39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	0	
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/ resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/		

residents/detainees who were interviewed. If a particular targeted population is not applicable in

### SITE REVIEW AND DOCUMENTATION SAMPLING

### **Site Review**

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.			
64. Did you have access to all areas of the facility?	<ul><li>Yes</li><li>No</li></ul>		
Was the site review an active, inquiring proce	ess that included the following:		
65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, crossgender viewing and searches)?	<ul><li>Yes</li><li>No</li></ul>		
66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	Yes No		
67. Informal conversations with inmates/ residents/detainees during the site review (encouraged, not required)?	● Yes ○ No		
68. Informal conversations with staff during the site review (encouraged, not required)?	<ul><li>Yes</li><li>No</li></ul>		

69. Provide any additional comments	No text provided.
regarding the site review (e.g., access to	
areas in the facility, observations, tests

conversations).	

### **Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	
71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

# SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

# Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

# 72. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	
Inmate- on- inmate sexual abuse	0	0	0	0
Staff- on- inmate sexual abuse	1	1	1	1
Total	1	1	1	1

# 73. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on- inmate sexual harassment	1	1	1	1
Staff-on- inmate sexual harassment	0	0	0	0
Total	1	1	1	1

# Sexual Abuse and Sexual Harassment Investigation Outcomes

### **Sexual Abuse Investigation Outcomes**

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

# 74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted

Staff-on-inmate sexual abuse	0	1	0	0
Total	0	1	0	0

### **Sexual Harassment Investigation Outcomes**

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detained sexual harassment investigation files, as applicable to the facility type being audited.

# 76. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

### **Standards**

### **Auditor Overall Determination Definitions**

- Exceeds Standard (Substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard (requires corrective actions)

### **Auditor Discussion Instructions**

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

# 115.11

# Zero tolerance of sexual abuse and sexual harassment; PREA coordinator

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Walsh County Jail is a small, 16-bed facility in Grafton, North Dakota. The jail is administered by the Sheriff and daily operations are performed by nine (9) jail staff. The Chief Corrections Officer has been appointed as the PREA Coordinator who reports directly to the Sheriff. The PREA Coordinator has assigned a Corporal to assist in PREA compliance efforts which is mainly comprised of completing the inmate screening assessment within 30 days of intake. The PREA Coordinator, with the support of the Sheriff, has been committed to maintaining PREA standards within the jail. The auditor reviewed Policy C-270 (PREA) Prison Rape Elimination Action of 2003. The policy follows the guidelines of the PREA standards. The PREA Policy in its entirety is posted on their website. The opening statement follows the definitions in paragraph. §115.11 1.a. "Walsh County has a zero tolerance toward all forms of sexual abuse and sexual harassment within its facilities." Their PREA policy is modeled after the North Dakota Department of Corrections and Rehabilitation (NDDOCR) policy. The auditor provided recommendations on updates to the policy that are noted in their respective standards.

# 115.12 Contracting with other entities for the confinement of inmates

**Auditor Overall Determination: Meets Standard** 

### **Auditor Discussion**

The Walsh County Jail contracts with Grand Forks County Correctional Center for confinement of their female inmates. The facility provided a copy of their contract. Paragraph 8 states that they will comply with PREA standards, will self- monitor and that Walsh County may conduct announced or unannounced compliance monitoring to include on-site monitoring. The Sheriff monitors compliance with the standard through review of the Grand Forks County Correctional Center's posted PREA Audit report, annual report, and aggregate data and maintains regular contact with the Grand Forks County Correctional Center's administrator.

The Walsh County Jail previously contracted with the Rolette County Law Enforcement Center for the confinement of inmates. Although this contract does not specifically have a clause that references PREA, paragraph 7 states that Walsh County shall have the right to enter Rolette County LEC at reasonable hours for the purpose of inspecting and ascertaining conditions under which Walsh County prisoners are detained. Paragraph 10 states that this agreement is subject to all the provisions of North Dakota State Law and all the rules and regulations promulgated pursuant thereto concerning the care and custody of persons detained in penal facilities. North Dakota Century Code (N.D.C.C.) § 12-44.1-24 also requires the Department of Corrections and Rehabilitation to appoint a correctional facility inspector qualified by special experience, education, or training to inspect each correctional facility at least once each year to determine whether there is compliance with the Department's standards and rules. Standard 2 of the jail inspection is that they will comply with all applicable state and federal laws, rules, and regulations, including all requirements of 28 Code of Federal Regulations Part 115 (PREA). The auditor confirmed that the Rolette County Jail is compliant with PREA Standards and publicly posts their PREA audits on their website.

**RECOMMENDATION:** The auditor recommended that if the Walsh County Jail utilizes the Rolette County Law Enforcement Center in the future for the confinement of inmates that they complete a renewed contract or a contract addendum with the Rolette County Law Enforcement Center with an added PREA clause that states the Rolette County Law Enforcement Center comply with the PREA standards and allows the Walsh County Jail to monitor their facility to ensure that they are complying with the PREA standards.

115.13	Supervision and monitoring	
	Auditor Overall Determination: Meets Standard	
	Auditor Discussion	

The auditor reviewed the Walsh County Jail policy, the organization structure, the staffing levels through the schedule that was provided and through direct observation while on the facility tour. The facility utilizes their staffing plan together with an annual assessment to meet this standard. The facility provided the auditor with their 2023 Annual Assessment (of the staffing plan). The Walsh County Jail is a very small jail. The Sheriff directly oversees the jail operations and is assisted by the Chief Corrections Officer who is the PREA Coordinator. There are two corporals and six corrections officers. The staffing plan outlines their minimum staffing level. There are no female inmates in custody at this jail as they are contracted for confinement at Grand Forks County Correctional Center and previously at the Rolette County Jail.

The auditor reviewed the schedule and noted that there were times that they fell below their minimum staffing level. The auditor also noted that there was a requirement from the DOCR in Jail Standard 30 that Correctional facilities may not detain an inmate without at least two trained correctional officers who have completed North Dakota Correctional Officer Basic Certification and Correctional Medical Training I and II, have completed the training required under Standard 103, or are acting under the supervision of trained correctional facility staff on duty capable of responding to the reasonable needs of the inmate. In reviewing the schedule, the auditor noted that there were three, night shifts in which there was not a fully trained correctional officer on duty. The 2023 Annua Assessment stated there were no deviations from the staffing plan for calendar year 2023. The auditor was not provided with an exigent circumstance log for 2023 and 2024 in which deviations should be noted.

The facility provided the auditor with their Zuercher logs for unannounced rounds by supervisory staff. The management staff stated they come in frequently to conduct unannounced rounds to observe operations. The auditor viewed the electronic jail log to confirm entries. The Chief Corrections Officer conducts unannounced rounds that are following the standard. This was verified by log reports with the tags either "Administrative Check" or "Supervisory Staff Patrol" provided to the auditor as well as through interviews. The rounds were varied and included nights and weekends. The Sheriff walks through the jail and this was verified through staff interviews. However, these rounds are not documented. The auditor recommends that the correctional officers document these rounds in the log reports as "Administrative Check" rounds. Their policy prohibits staff from alerting other staff members that these supervisory rounds are occurring. There are multiple cameras throughout the facility that are monitored both in the correctional control room staff and the law enforcement dispatch staff.

**CORRECTIVE ACTION:** The auditor required the Walsh County Jail to provide the schedules throughout the corrective action period in which there is always the required number of correctional officers on duty as outlined withing their staffing plan and that there is always at least one fully trained correctional officer on each shift. The PREA Coordinator provided the staffing schedules through the corrective action period from June 2024 through December 2024. The facility had two correctional officers with one CO Basic trained correctional officer on duty for both the day and night shifts throughout the corrective action period. The auditor required

documentation of any exigent circumstance for the periods in which there were not two staff on each shift. The PREA Coordinator provided an exigent circumstance log for the period prior to the corrective action period.

115.14	Youthful inmates	
	Auditor Overall Determination: Meets Standard	
	Auditor Discussion	
	The Walsh County Jail does not house youthful inmates.	

# 115.15 Limits to cross-gender viewing and searches Auditor Overall Determination: Meets Standard **Auditor Discussion** There are no female inmates housed at this facility. Female correctional officers do not strip search male inmates, but policy requires that if this does occur during an exigent circumstance to document it with justification. The facility would document any exigent circumstances within their log. The facility prohibits examination for the sole purpose of determining gender and staff are knowledgeable of correct search procedures for transgender or intersex inmates. If the offender's genital status is unknown, it is determined during conversations with the offender, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Staff are trained in cross-gender and transgender pat searches and adequately explained during the interview process using the back of the hand for these searches as well as requesting inmates who are transgender or intersex to state their preference for the gender of the staff to conduct their search. Cross-gender search training is taught in Correctional Officer Basic school. The facility provides refresher training using the video provided through the PREA Resource Center titled "Guidance in Cross-Gender and Transgender Pat Searches." All toilets and shower areas are blacked out on the cameras for inmate privacy while toileting and showering. All female correctional officers make announcements when entering an inmate housing area. This was witnessed by the auditor as she toured the facility and was also verified by the auditor through staff and inmate interviews.

Inmates shower in private shower stalls to provide privacy and to prevent observation by staff of the opposite gender or casual observers. The Ward housing unit toilets are located immediately to the left of the entry doorway to this housing area. The facility

has added a shower curtain covering this entrance for privacy.

# Inmates with disabilities and inmates who are limited English proficient Auditor Overall Determination: Meets Standard Auditor Discussion The Walsh County Jail uses border patrol agents who speak Spanish and a contracted service with the Language Link for inmates who are limited English proficient and or deaf and require sign language interpretation. At the time of the on-site portion of the audit there were no inmates who needed assistance. The staff assist visually impaired or those with intellectual impairments by verbally going over the material or

providing assistance in a manner they are able comprehend.

# 115.17 Hiring and promotion decisions Auditor Overall Determination: Meets Standard **Auditor Discussion** The auditor interviewed the Sheriff and the Chief Corrections Officer responsible for hiring and reviewed personnel files for necessary documentation to meet this standard. The facility conducts criminal background checks on applicants before an offer of employment is made, and on current employees when they are promoted. The auditor reviewed a random sampling of employee files and found the necessary background checks were ran prior to employment/service. The facility performs a background check at least every five years of current employees and contractors who may have contact with inmates. The facility does not hire, promote, or enlist the services of any employee or contractor who may have contact with inmates, who has engaged in sexual abuse in any criminal justice facility, has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described above. These questions are asked of perspective applicants during the hiring process and annually as a part of the annual review process. The facility provided documentation that newly hired employees who had previous employment history in an institutional setting have a reference check of their former institutional employer that inquires if there was any substantiated sexual abuse during their employment or any resignation during a pending investigation of an allegation of sexual abuse. The facility provides information on substantiated allegations of sexual abuse or sexual harassment or any resignation during a pending investigation of an allegation of sexual abuse involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work in another institutional setting.

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed the Walsh County Jail policy, video monitoring systems, directly observed all areas of the facility and conducted interviews with the administrative staff. The facility considers protection of inmates and the standards when contemplating upgrades to the facility or in the application of technology. This jail utilizes video monitoring and an intercom system to both monitor activity within the housing area and provide a means for inmates to request assistance. The facility has began using a Guard tour system to log safety and security checks.

115.21	Evidence protocol and forensic medical examinations		
	Auditor Overall Determination: Meets Standard		
	Auditor Discussion		
	The auditor reviewed the PREA policy and interviewed the Sheriff, the PREA		
	Coordinator and the investigator from the Walsh County Sheriff's Department. Victims		
	of sexual abuse have access to forensic medical exams through Altru Hospital in		
	Grand Forks. The auditor spoke with the SANE nurse, and she confirmed SANE		
	trained nurses will provide forensic sexual assault medical examinations. The facility		
	has an MOU with Domestic Violence and Abuse Center Inc. (DVAC) in Grafton for		
	advocacy services. If law enforcement responds to a sexual assault case within the		
	jail, evidence protocol is followed, and they work cooperatively with the SANE nurse		
	to ensure all usable physical evidence is gathered.		

115.22	Policies to ensure referrals of allegations for investigations				
	Auditor Overall Determination: Meets Standard				
	Auditor Discussion				
	The auditor reviewed policy, the website for Walsh County, reviewed investigative files and interviewed the Sheriff, the PREA Coordinator, and the investigator from the Walsh County Sheriff's Office. The facility refers all allegations for investigation. Investigations are completed by qualified investigators and required documentation and reporting will occur. A Sheriff's office investigator or a Bureau of Investigations (BCI) agent handle any investigations. Criminal investigations involving staff-on-inmate sexual misconduct are investigated by an investigator from the North Dakota Bureau of Investigations. Referrals for investigations are outlined in Policy C-270 (PREA) <i>Prison Rape Elimination Act of 2003</i> . The entire PREA policy, to include the				

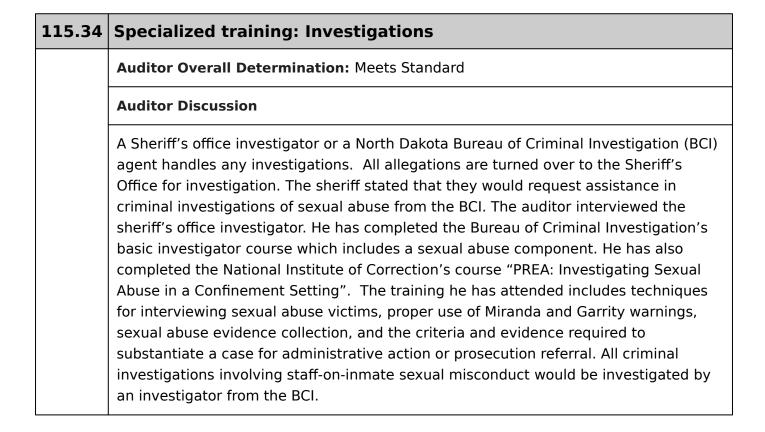

investigative section, is published on the Walsh County website at https://walshcountynd.com/county-government/sheriffs-department/prea/. During the interviews it was stated that the sheriff's office investigator handles most investigations unless staff are involved.

# Auditor Overall Determination: Meets Standard Auditor Discussion The auditor interviewed the Sheriff, the PREA Coordinator and staff and reviewed training documentation. Basic PREA training with staff was apparent during the interviews as staff were knowledgeable when interviewed in the required competencies such as the correct first responder response – separate, provide care, protect evidence, call for assistance, notify supervisory staff and provide a written report. They begin with new employees participating in the video "Complying with PREA for the C.O." from Lockup USA Productions. Long term employees watch other videos to expand their knowledge of PREA such as "Communicating Effectively and Professionally with LGBTI Offenders", "PREA Audit Process and Instrument Overview", "PREA 201 for Medical and Mental Health Practitioners" Their training documentation is a list by CO name, with columns that include the course, the date and the number of hours of each training. Most staff also completed a PREA training component at

Correctional Officer Basic School.

# Auditor Overall Determination: Meets Standard Auditor Discussion The facility provides PREA training to their religious volunteers and contractors. The auditor viewed and verified documentation of training that has been provided to volunteers and contractors. The auditor spoke with a contractor who was able to state the facility's zero-tolerance policy and the appropriate actions to take if an inmate indicated sexual abuse. She reports any sexual abuse and sexual harassment to the Jail Administrator. The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates, but all volunteers and contractors who have contact with inmates are notified of the zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. Typically, they view the same PREA training video provided to new hires.

# 115.33 Inmate education Auditor Overall Determination: Meets Standard **Auditor Discussion** The Walsh County Jail has implemented an inmate training program. The basic information is provided to an inmate during the intake process about the jail's zero tolerance policy and how to report. The inmate is given an Inmate Orientation sheet which they sign, and the intake staff verbally gives them the PREA information. They are also told to review the handbook. They review the handbook and the video when they get into their assigned housing on the texter. A contractor provides phone service and texters to inmates. They can view both the handbook and the PREA video "PREA - What You Need to Know", with more comprehensive PREA information. The contractor's system provides a printout of the date the comprehensive training was provided, and the facility tracks it to ensure it is completed within 30 days of arrival. The auditor confirmed the training by reviewing training documentation and through inmate interviews. The information is readily available throughout an inmate's stay with the inmate handbook on the texters and posters throughout the facility.

115.35	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard

### **Auditor Discussion**

115.42

Use of screening information

offender's harm by staff or other offenders.

The auditor interviewed the county health nurse who provides nursing services to the Walsh County Jail and reviewed training documentation. The nurse has completed basic PREA education as a contractor through watching the same PREA video that newly hired staff watch. She stated she has completed specialized training through the National Institute of Corrections course "Medical Care for Sexual Assault Victims in a Confinement Setting" several years ago when she started working at the jail. She will attempt to locate and provide the certificate to the auditor.

## Auditor Overall Determination: Meets Standard Auditor Discussion The auditor reviewed screening documents, rescreening documentation, and interviewed the PREA Coordinator, the PREA Compliance Manager, and inmates. The Walsh County Jail completes a screening process upon intake. Staff confirmed that they are continually reassessing an inmate's status. The PREA Compliance Manager completes the reassessment within 30 days of intake. They specifically would reassess if a referral or request was made by any staff, volunteer or if there was an incident of sexual abuse or receipt of additional information that has bearing on their risk of sexual victimization or abusiveness.

## Auditor Discussion The auditor reviewed screening documents, rescreening documentation, and interviewed the PREA Coordinator, the PREA Compliance Manager, and inmates. Walsh County Jail has a PREA screening process and uses that along with other classification methods to determine placement within their housing unit and bed assignment. All inmates' housing and bed assignments are done on a case-by-case basis considering the inmate's own views of safety. Inmates who are transgender or intersex are given the opportunity to shower separately. The Walsh County Jail is a small jail and therefore all staff conduct screenings. Once they are completed, they are locked within the staff office to control the dissemination of responses to screening questions. This ensures that sensitive information is not exploited to the

# Auditor Overall Determination: Meets Standard Auditor Discussion Walsh County Jail staff typically finds alternative housing units that provide protection for the inmate without segregating or isolating them. If they needed protective custody, it would be for a very limited duration and only until they could find appropriate housing. If the Walsh County Jail restricts access to privileges, they will document the opportunities that have been limited, the duration of the limitation, and the reasons for such limitations. Offenders at high risk for sexual victimization would not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. There was one inmate placed into protective custody for less than 24 hours awaiting completion of an assessment.

### 115.51 Inmate reporting

Auditor Overall Determination: Meets Standard

### **Auditor Discussion**

The auditor interviewed administrators, staff and inmates, reviewed policy and toured the facility. The Walsh County Jail provides multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other offenders or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Staff accept reports made verbally, in writing, anonymously, and from third parties and promptly document any verbal reports.

The Walsh County Jail utilizes the Grafton Police Department as its external reporting entity. The facility posts the number but does not post the generic Personal Identification Number (PIN) used to ensure the call is free and unrecorded. A PIN number can be traced back to a specific inmate negating the ability to allow the inmate to remain anonymous from jail administrators. The auditor performed a test call using the generic PIN from an inmate phone to the Grafton Police Department to confirm inmates have access and to confirm that this entity would report back to jail administrator but allow an inmate to remain anonymous upon request. The auditor reviewed the list of phone numbers from a report provided by the telephone contractor. The Grafton Police Department phone number is on the list with attorney's numbers to verify that the call is free and unrecorded.

**CORRECTIVE ACTION:** The auditor required that the posters specify the generic PIN number that is used to contact the Grafton Police Department so that an inmate is not charged for the call and the call is unrecorded. On November 17, the PREA

Coordinator provided pictures of the posters in each housing unit that specify the Generic PIN of 1111 that is used by inmates to make a call that is free and not recorded. The auditor observed the call being made to the Grafton Police Department that did not require a PIN. The PREA Coordinator provided a report of all numbers that are loaded into their phone system as numbers not to be recorded. This report included attorneys, the Grafton Police Department and the Domestic Violence and Abuse Center.

### 115.52 Exhaustion of administrative remedies

Auditor Overall Determination: Meets Standard

### **Auditor Discussion**

The auditor reviewed the PREA policy, the grievance process provided to inmates on the back of the Formal Grievance Form, and the inmate handbook, and conducted staff and inmate interviews. There were eight grievances filed that were related to sexual abuse, sexual harassment, or retaliation for reporting within this audit reporting period. The PREA Policy and Policy 609.5 on the back of the formal grievance form are in compliance with the standard. In those documents the Walsh County Jail does not impose a time limit on when an offender may submit a grievance regarding an allegation of sexual abuse. They do not require an offender to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse. They ensure that an offender who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint, and such grievance is not referred to a staff member who is the subject of the complaint. They issue a final decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. Third parties, including fellow offenders, staff members, family members, attorneys, and outside advocates, are permitted to assist offenders in filing requests for grievances relating to allegations of sexual abuse, and are also be permitted to file such requests on behalf of offenders. They have established procedures for the filing of an emergency grievance when the offender is subject to a substantial risk of imminent sexual abuse. After receiving an emergency grievance alleging a substantial risk of imminent sexual abuse, the Walsh County Jail staff immediately forwards the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to the Sheriff for immediate corrective action, and provides an initial response within 48 hours, and issues a final decision within 5 calendar days. The initial response and final decision documents their determination whether the offender is at substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The Walsh County Jail may discipline an offender for filing a grievance related to alleged sexual abuse only where the jail demonstrates that the offender filed the grievance in bad faith.

The inmate grievance form was corrected during the last audit, but the previous noncompliant language is now in the Inmate Handbook. Many of the requirements of the standard are negated within the Inmate Handbook. On page 10 of the inmate handbook under Grievance Process in paragraph one it states "the issue must personally affect the inmate..." In paragraph two it states that before you file a grievance, you are required to attempt to resolve your complaint informally." Paragraph two further states that the Inmate Grievance request must be submitted within two (2) days of the alleged incident...." The standard requires that there be no time limit. The auditor lists the specific corrections needed to the Inmate Handbook in the corrective actions below.

**CORRECTIVE ACTION:** The auditor required modifications to the Grievance Process document provided to inmates in the Inmate Handbook as there are several items that conflict with this standard as listed below. The PREA Coordinator provided a revised handbook which is in compliance with this standard.

- The Walsh County Jail Grievance Process stated that the issue must personally
  affect the inmate filing the grievance. The handbook now states that, "The
  issue must personally affect the inmate, and there must be a reasonable
  remedy. However, third parties, including fellow inmates, staff members,
  family members, attorneys, and outside advocates can file a grievance
  relating to allegations of sexual abuse on behalf of an inmate."
- The Walsh County Jail Grievance Process stated that the inmate is required to resolve the complaint informally. The handbook now states that "However, you are not required to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse."
- The Walsh County Jail Grievance process stated that they may obtain
  assistance from staff but did not list the other third parties that may assist. It
  now states, "You may obtain assistance from staff or other third parties
  including other inmates, family, attorneys or an outside advocate to complete
  the form, but you must sign the form on the signature line and record the
  date."
- The Walsh County Jail Grievance Process required that the grievance be submitted within two days of the alleged incident. The handbook now states that "Any Inmate Grievance that has allegations of sexual abuse has no time limit."
- The Walsh County Jail Grievance Process did not state a time period in which to respond to emergency grievances. The handbook now states that "An Emergency Grievance will be immediately forwarded to a level of review that can take immediate corrective action and that the jail must provide an initial response within 48 hours and a final decision within five (5) calendar days. This initial response and final decision will document the determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the Emergency Grievance."
- The Walsh County Jail Grievance Process did not specifically state that the
  inmate must be able to submit a grievance without submitting it to a member
  who is the subject of complaint, and that the grievance is not referred to the
  staff member who is the subject of the complaint. It also did not specifically
  state that at any level of the administrative process, including the final level,

if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, the inmate may consider the absence of a response to be a denial at that level. The handbook now states that "The inmate can submit a grievance without submitting it to a member who is the subject of the complaint, and that the grievance is not referred to the staff member who is the subject of the complaint." It also states that "At any level of the administration process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, the inmate may consider the absence of a response to be a denial at that level.

115.53	Inmate access to outside confidential support services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Inmates have access to outside confidential support services. The facility has an agreement with the Domestic Violence and Abuse Center (DVAC). for advocacy and support services. The auditor performed a test call using the generic PIN from an inmate phone to DVAC to confirm inmates have access and that it is a free call. The auditor reviewed the list of phone numbers from a report provided by the telephone contractor. The DVAC phone number is on the list with attorney's numbers to verify that the call is free and unrecorded.

115.54	Third-party reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility has posted on their website at https://walshcountynd.com/county-government/sheriffs-department/prea/ the address and telephone number for third-parties to contact the sheriff to report sexual abuse or harassment on behalf of an inmate.

115.61	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The facility requires all staff, including the nurse, to immediately report any knowledge, suspicion or information received related to sexual abuse/harassment incidents, retaliation and staff negligence that may have contributed to such incidents. Staff are required to make such reports to the Chief Corrections Officer and a report is submitted to the investigator. Staff interviews confirmed their responsibility to report and to maintain that information in confidence. The PREA policy requires the report of all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports to the Sheriff's Department investigator.

115.62	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility requires all staff to take immediate action to protect the inmate from imminent sexual abuse. The Sheriff and the Chief Corrections Officer and direct care staff understand that "immediate" means when the response is needed – that could mean within minutes if the abuse was recent, or it could mean before the end of the shift for incidents in which an abuse was reported that occurred in the distant past. This was verified through a review of the PREA policy and staff interviews.

115.63	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Interviews with the Sheriff and the Chairman of the County Commission confirm actions that will be taken upon receiving an allegation of sexual abuse while an inmate was at another facility or received from another facility about sexual misconduct that was alleged to have occurred at the Walsh County Jail. Such action will be initiated no later than 72 hours and actions will be documented. These steps were also noted in the review of policies and procedures. If an allegation is received from another facility about the Walsh County Jail it goes directly to the Sheriff as the point of contact. The Sheriff had received one in previous years that had already been investigated.

115.64	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

Interviews with staff verified their process to provide assistance; separate alleged victim/abuser; preservation and protection of evidence by securing the scene including that the victim or perpetrator does not take any actions that could destroy any physical evidence and to report immediately to the Chief Corrections Officer and the Sheriff. These actions are also required by policy.

115.65	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor reviewed the section of the PREA policy related to the coordinated response plan, reviewed the MOU with the Domestic Violence and Abuse Center, interviewed the sheriff, the staff, the investigator, a Domestic Violence and Abuse Center staff member and the SANE nurse at Altru Hospital in Grand Forks. The Walsh County Jail coordinated response is within their PREA policy and it properly coordinates actions between first responders, medical and mental health practitioners, investigators, the sheriff, and the Chief Corrections Officer/PREA Coordinator. The staff and administrators are aware they must transport an inmate to provide immediate medical care at Unity Hospital in Grafton, the local hospital, and to transport to Altru Hospital in Grand Forks for a forensic examination to be completed by a SANE

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Walsh County Jail Sheriff will remove alleged staff sexual abusers from contact with inmates pending the outcome of the investigation. The facility is not restricted in any way from protecting inmates from contact with abusers.

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The PREA coordinator in conjunction with the Sheriff is charged with monitoring for retaliation. The PREA Coordinator stated that he has assigned the PREA Compliance

Manger with assisting with monitoring for retaliation. Should any person who cooperates with a sexual misconduct investigation express fear of retaliation; appropriate protective measures will be taken. Retaliation monitoring will be discontinued should the allegation be unfounded. Measures include housing changes, removing contact of alleged staff/inmate abusers and emotional support services for those who fear retaliation. Interviews with the PREA Coordinator and the PREA Compliance Manager confirmed these duties and responsibilities. Monitoring is required through their PREA policy. There have been no allegations that required monitoring.

### Auditor Overall Determination: Meets Standard Auditor Discussion The auditor reviewed policy and interviewed the Sheriff, the PREA Coordinator, and the PREA Compliance Manager. The Walsh County Jail staff typically finds alternative housing units that provide protection for the inmate without segregating or isolating them. Their first response is to remove the abuser. If they need to use protective custody, it would be for a very limited duration only until they can find appropriate housing.

Criminal and administrative agency investigations

115.71

### Auditor Overall Determination: Meets Standard **Auditor Discussion** The auditor interviewed staff and inmates, the Sheriff, the Chief Corrections Officer and the Chief Deputy who would investigate any sexual abuse or sexual harassment allegations. There were four documented investigations at the Walsh County Jail to review. Through the interview with the investigator, it was determined that investigations are not terminated should the source of the allegation recant. Should criminal prosecution be considered, the investigator coordinates with the state's attorney. Polygraph tests are not used during their investigations. All written reports are retained for as long as the alleged abuser is incarcerated or employed by the facility plus five years. Investigations will not be terminated due to the departure of an alleged abuser or victim. These steps are properly documented in the PREA policy. The sheriff's office investigator has completed the required training. Investigations include efforts to determine whether staff actions/failures contributed to the abuse documented through written reports, which will include physical/testimonial evidence, credibility assessments and investigative facts and findings.

The four investigations reviewed by the auditor were well written, containing all the necessary components required by the standard. However, the investigator misapplied terms required by the standard or did not appropriately use the standard definition for sexual abuse. Criminal investigators typically do not assign an outcome to a case but turn the investigative report and evidence over to the state's attorney so that the judicial process may determine the outcome. Criminal investigations must meet the definitions as described in state law. PREA standard definitions of sexual abuse and sexual harassment may differ from state law. The Walsh County Jail has not had an allegation of sexual abuse or sexual harassment in more than ten years and the investigator has not had to apply the skills he learned as an administrative investigator many years ago.

The investigator did not clearly understand the terms used in PREA investigations and assigned the conclusion of the investigations as Unsubstantiated. The investigator stated to the auditor that he determined through the investigative process that the allegations did not occur. This means the allegations were Unfounded. However, the investigator mistakenly applied the term Unsubstantiated which means an allegation that was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred – meaning the investigator simply could not tell one way or the other whether the event occurred. There are two allegations in which the cases should have been aggregated as Unfounded Sexual Harassment.

In addition, there was one Unfounded case in which the inmate alleged that a staff member was looking at him while in his boxers and shirt. The investigator assigned the case type as staff voyeurism. The standard states voyeurism as an invasion of privacy of an inmate by staff for reasons unrelated to official duties, such as peering at an inmate who is using a toilet in his or her cell to perform bodily functions; requiring an inmate to expose his or her buttocks, genitals, or breasts; or taking images of all or part of an inmate's naked body or of an inmate performing bodily functions. This case does not meet the definition of sexual abuse, voyeurism, or sexual harassment. The inmate was clothed, called the officer in to the housing area to deal with a hot water issue, and was not in a state of undress and therefore does not by definition meet the standard as a PREA allegation. This case should not be included in the aggregate data.

A case was assigned to the Bureau of Criminal Investigation as the case involved a staff member who allegedly displayed his genitalia in front of an inmate. The BCI investigative report did not provide an outcome as criminal investigations do not assign a determination and returned the case to the Walsh County Sheriff's Office. The investigator should have completed his corresponding administrative investigative report, and the case should have been assigned the case type of Sexual Abuse as the standard defines sexual abuse as any display by a staff member, contractor, or volunteer of his or her uncovered genitalia, buttocks, or breast in the presence of an inmate. Based on the evidence, that auditor believes the administrative case should have been aggregated as Unfounded Sexual Abuse.

**CORRECTIVE ACTION:** There were no PREA allegations during the corrective action period. The auditor provided scenario exercises that the investigator completed to

demonstrate understanding of the PREA administrative investigative process, PREA definitions of sexual abuse, sexual harassment, and voyeurism, and PREA determinations of Unfounded, Substantiated, and Unsubstantiated. The auditor required a written statement for each investigation from the investigator with the case number and the investigator's correct assigned determination to each investigation. The auditor required that this written statement be appended to each investigative file. In addition, the auditor required that the aggregate data and the annual report be corrected to reflect the corrected determination of the investigator. The PREA Coordinator and the investigator completed all the required steps exceptionally well during the corrective action period and the auditor is satisfied that they have a firm understanding of using the definitive terms within the standards within their investigations.

### 115.72 Evidentiary standard for administrative investigations Auditor Overall Determination: Meets Standard **Auditor Discussion** The auditor reviewed the policy, the investigations and interviewed the Sheriff and the Chief Deputy which conducts investigations for the jail. Both the Sheriff and the Sheriff's department investigator are knowledgeable that they facility uses no standard higher than the preponderance of evidence in making final determinations of sexual abuse/harassment - meaning that the facility can take necessary actions when at the conclusion of the investigation the evidence leads them to believe the incident more than likely occurred (greater than 50%) regardless of the higher

standard needed for referring a case for prosecution.

115.73

### Reporting to inmates Auditor Overall Determination: Meets Standard **Auditor Discussion** The Walsh County Jail had one investigation of sexual abuse. However, there is no documentation to verify that the incident was reported back to the inmate. The auditor interviewed staff and the investigator. The auditor reviewed the PREA policy which states that following an investigation, the Lead Investigator or staff member designated by the Lead Investigator will inform the inmate or inmates verbally whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. The Lead Investigator will deliver in person a statement of findings which will require the signature of the inmate or inmates. If the inmate refuses to sign the findings form, the Lead Investigator will document the refusal and have a staff member witness and sign the refusal.

**CORRECTIVE ACTION:** There were no PREA allegations during the corrective action period to verify reporting back to inmates the results of an investigation. However, the auditor required they provide the form they would use to report the outcome of an investigation to the inmate following any sexual abuse investigations. The PREA Coordinator provided the form they would use to report back to the inmate the outcome.

### 115.76 **Disciplinary sanctions for staff** Auditor Overall Determination: Meets Standard **Auditor Discussion** The auditor interviewed the Sheriff and reviewed PREA policy. Staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement, unless the activity was clearly not criminal, and to any relevant licensing bodies. There have been no Substantiated cases of staff

misconduct regarding sexual abuse or sexual harassment.

### Auditor Overall Determination: Meets Standard Auditor Discussion Contractors and volunteers are subject to disciplinary actions including termination for violation of facility sexual abuse/harassment policies. According to the Sheriff should any violation of this type be substantiated; he has complete authority to administer remedial measures including prohibiting further contact with inmates. Contractors or volunteers who engage in sexual abuse will be reported to law enforcement agencies (unless the activity was clearly not criminal). There have been no allegations of volunteer misconduct regarding sexual abuse or sexual harassment.

### 115.78 Disciplinary sanctions for inmates

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The auditor interviewed the Sheriff, the PREA Coordinator, staff, and inmates and reviewed policy. The facility prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred. The Walsh County Jail does not provide counseling or therapy to address and correct the underlying reasons or motivations for abuse. If findings of inmate-on-inmate sexual abuse are substantiated, administrative sanctions will be administered following the formal disciplinary processes and applied commensurate with the level of infractions. Some examples given by the Sheriff are loss of privileges such as the use of texters, visitation or commissary and other minor sanctions for minor infractions. More serious infractions would be segregation, transfer, and additional criminal charges. There have been no substantiated cases of inmate misconduct regarding sexual abuse or sexual harassment.

### 115.81 Medical and mental health screenings; history of sexual abuse

**Auditor Overall Determination: Meets Standard** 

### **Auditor Discussion**

The auditor interviewed the nurse and reviewed the policy. If the screening indicates that an inmate experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, the staff forward the screening documents to the nurse so she can meet with them for follow-up during the nurse screening that occurs within 14 days of the intake. The nurse sees all inmates within 14 days. The nurse documents any follow-up in the inmate's medical chart.

### 115.82 Access to emergency medical and mental health services

**Auditor Overall Determination: Meets Standard** 

### **Auditor Discussion**

The auditor interviewed the Sheriff, the PREA Coordinator, the nurse and reviewed the PREA policy. Offender victims of sexual abuse would receive timely, unimpeded access to emergency medical treatment and crisis intervention services through either Unity Hospital in Grafton if immediate medical care were necessary or if possible, they would be transported to Altru Hospital in Grand Forks for a forensic examination to be completed by a SANE. Crisis intervention services would be provided by referral from either the county health nurse or the medical providers at the hospital. Victims of sexual abuse would be offered timely information about and timely access to emergency contraception and sexually transmitted infections

prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. The PREA policy documents PREA requirements for access to emergency medical and mental health services. Emergency medical and mental health services are provided without charge to inmates.

### Ongoing medical and mental health care for sexual abuse victims and abusers

**Auditor Overall Determination: Meets Standard** 

### **Auditor Discussion**

The auditor interviewed the Sheriff, the PREA Coordinator, the nurse and reviewed the PREA policy. The county health nurse would conduct a medical evaluation or take the recommendation from any medical providers the victim was evaluated by for continued care. The evaluation and treatment of such victims include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. Victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. There are no female inmates at this facility, but if that changes in the future, facility staff and medical staff are aware they must provide pregnancy tests and all pregnancy-related services. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. There are no female inmates at this facility.

### 115.86 Sexual abuse incident reviews

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The auditor interviewed the Sheriff and the PREA Coordinator. Investigations that were concluded with a determination of Unfounded does not require a sexual abuse incident review. The process is outlined within policy and follows the standard. The Walsh County Jail will conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including when the allegation has not been substantiated, unless the allegation has been determined to be unfounded. This review will occur within 30 days of the conclusion of the investigation. The review team includes the Sheriff, the Chief Correctional Officer who has been assigned duties as the PREA Coordinator, the investigator and if relevant, the nurse. Their policy does follow the standard with respect to when a review should be conducted, who should be in attendance and what questions should be answered. The auditor recommends that a form be developed in which to document reviews when needed in the future. In this way they are sure to document important factors such as motivation, adequate

staffing levels, monitoring technology and whether there are any recommendations for improvement.

# Auditor Overall Determination: Meets Standard Auditor Discussion The auditor interviewed the Sheriff and the PREA Coordinator, reviewed the PREA policy and the annual report with aggregated data. The facility collects uniform data for every allegation of sexual abuse using definitions from the PREA standards and will aggregate the incident-based sexual abuse data at least annually. The facility contracts with Grand Forks Correctional Center for the confinement of female inmates and have included a link to GFCC aggregated data on their website. The Walsh County Jail previously contracted with the Rolette County Law Enforcement Center for the confinement of inmates. They are aware that if they do so again in the future, they are required to post Rolette County Law Enforcement Center's data publicly on the Walsh County website. The facility has not been asked to participate in the Survey Sexual Victimization.

115.88	Data review for corrective action
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor interviewed the Sheriff and the PREA Coordinator and reviewed the PREA policy. The Walsh County Jail is aware of the requirement to collect data to assess and improve the effectiveness of their sexual abuse prevention, detection, and response policies, practices, and training, including identifying problem areas; taking corrective action on an ongoing basis; and preparing an annual report of its findings and corrective actions. They have completed an annual report and published it on their website at https://walshcountynd.com/county-government/sheriffs-department/prea/.

115.89	Data storage, publication, and destruction
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The auditor interviewed the Sheriff and the PREA Coordinator and reviewed the policy. The PREA policy addresses data storage, publication and destruction requirements.

Data collected is retained via limited access and it is retained for at least ten (10) years. The Walsh County Jail aggregated data is publicly available through its website at https://walshcountynd.com/county-government/sheriffs-department/prea/. The link to the aggregate data for Grand Forks County Correctional Center (All Females for the Walsh County Jail are housed at the GFCCC) can also be found on this website.

115.401	Frequency and scope of audits
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Walsh County Jail was first audited in April 2015 – Year 2 of the first audit cycle. The facility has maintained compliance with audit frequency from that point forward. The auditor had complete access and observed operations in every area of the Walsh County Jail. The auditor requested many documents throughout the audit process and will continue to request documents through the corrective action period. The Walsh County Jail staff have been very cooperative throughout the audit process. The jail provided private accommodations to conduct interviews, made adjustments to routines and staff schedules and allowed complete access to the auditor. The auditor notices were posted throughout the facility. The auditor received no correspondence or requests for interviews.

# Auditor Overall Determination: Meets Standard Auditor Discussion This is the fourth audit for the Walsh County Jail. There are preceding audits from April 2015, May 2018, and April 2021, but only the 2021 audit was published on their website at https://walshcountynd.com/county-government/sheriffs-department/prea/. The PREA Audits from April 2015 and May 2018 must remain posted on the county website. CORRECTIVE ACTION: The auditor required that the 2015 and 2018 audits be posted on the website. The PREA Coordinator notified the auditor when they were posted, and the auditor verified this by viewing their website.

115.13 (b)	Supervision and monitoring	
	In circumstances where the staffing plan is not complied with, does the facility document and justify all deviations from the plan? (N/A if no deviations from staffing plan.)	yes
115.13 (c)	Supervision and monitoring	
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The staffing plan established pursuant to paragraph (a) of this section?	yes
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The facility's deployment of video monitoring systems and other monitoring technologies?	yes
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The resources the facility has available to commit to ensure adherence to the staffing plan?	yes
115.13 (d)	Supervision and monitoring	
	Has the facility/agency implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment?	yes
	Is this policy and practice implemented for night shifts as well as day shifts?	yes
	Does the facility/agency have a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility?	yes

115.14 (a)	Youthful inmates	
	Does the facility place all youthful inmates in housing units that separate them from sight, sound, and physical contact with any adult inmates through use of a shared dayroom or other common space, shower area, or sleeping quarters? (N/A if facility does not have youthful inmates (inmates <18 years old).)	na
115.14 (b)	Youthful inmates	
	In areas outside of housing units does the agency maintain sight and sound separation between youthful inmates and adult inmates? (N/A if facility does not have youthful inmates (inmates <18 years old).)	na
	In areas outside of housing units does the agency provide direct staff supervision when youthful inmates and adult inmates have sight, sound, or physical contact? (N/A if facility does not have youthful inmates (inmates <18 years old).)	na
115.14 (c)	Youthful inmates	
	Does the agency make its best efforts to avoid placing youthful inmates in isolation to comply with this provision? (N/A if facility does not have youthful inmates (inmates <18 years old).)	na
	Does the agency, while complying with this provision, allow youthful inmates daily large-muscle exercise and legally required special education services, except in exigent circumstances? (N/A if facility does not have youthful inmates (inmates <18 years old).)	na
	Do youthful inmates have access to other programs and work opportunities to the extent possible? (N/A if facility does not have youthful inmates (inmates <18 years old).)	na
115.15 (a)	Limits to cross-gender viewing and searches	
	Does the facility always refrain from conducting any cross-gender strip or cross-gender visual body cavity searches, except in exigent circumstances or by medical practitioners?	yes
115.15 (b)	Limits to cross-gender viewing and searches	
	Does the facility always refrain from conducting cross-gender pat- down searches of female inmates, except in exigent circumstances? (N/A if the facility does not have female inmates.)	na
	Does the facility always refrain from restricting female inmates' access to regularly available programming or other out-of-cell opportunities in order to comply with this provision? (N/A if the	na

	facility does not have female inmates.)	
115.15 (c)	Limits to cross-gender viewing and searches	
	Does the facility document all cross-gender strip searches and cross-gender visual body cavity searches?	yes
	Does the facility document all cross-gender pat-down searches of female inmates (N/A if the facility does not have female inmates)?	na
115.15 (d)	Limits to cross-gender viewing and searches	
	Does the facility have policies that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks?	yes
	Does the facility have procedures that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks?	yes
	Does the facility require staff of the opposite gender to announce their presence when entering an inmate housing unit?	yes
115.15 (e)	Limits to cross-gender viewing and searches	
	Does the facility always refrain from searching or physically examining transgender or intersex inmates for the sole purpose of determining the inmate's genital status?	yes
	If an inmate's genital status is unknown, does the facility determine genital status during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner?	yes
115.15 (f)	Limits to cross-gender viewing and searches	
	Does the facility/agency train security staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs?	yes
	Does the facility/agency train security staff in how to conduct searches of transgender and intersex inmates in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs?	yes

115.16 (a)	Inmates with disabilities and inmates who are limited proficient	l English
